

# VAPPRO 851 FUEL-COR VCI FUEL ADDITIVE

**NATO STOCK NUMBER:**

6850-32-076-1132

## SLUDGE DISPERSANT AND COMBUSTION IMPROVER

### DESCRIPTION

Vapro 851 Fuel-Cor is a premium quality blend of solvents, dispersant detergents, and fortified with V.C.I. for minimizing the effects of fuel instability, that causes corrosion in fuel-system.

Vapro 851 Fuel-Cor is an Amber free flowing compound developed to dissolve sludge, prevent fuel stratification in fuel tank and protection of fuel-system from corrosion.

It cleans and keeps the active fuel system clean and reduces black smoke by improving combustion.

### FEATURES

- Keeps fuel-system free from corrosion
- Reduces black smoke
- Dissolves sludge formed during storage
- Disperses existing agglomerates in the fuel as very fine particles and prevents stratification
- Prevents blocking of filters and keeps fuel injectors clean
- Prevents asphaltic matter in the fuel from agglomerating and so limits formation of deposits in tank bottoms and transfer lines
- Extends periods between overhauls of injection system
- Improves fuel oil stability
- Reduces unburnt particles
- Does not require elaborate dosing equipment

## APPLICATIONS

- Dissolution of sludge
- Dispersion of asphaltene particles
- Combustion Improver
- Cleaning of fuel system
- Keeps the entire fuel system clean
- Protects fuel system from corrosion

## DIRECTIONS FOR USE

Vapro 851 Fuel-Cor is to be introduced into the storage tank before bunkering or to be added into fuel tank prior to refilling of fuel.

Dosage – 1% by volume.

## AVAILABLE PACKAGING

20 Liters Pail / 200 Liters Drum

## PHYSICAL PROPERTIES

**Appearance**  
Amber free flowing liquid

**Viscosity**  
Free Flowing

**Density 15°C**  
0.795± 0.5

**Flash Point**  
47°C (ASTM D56-05)

**Odour**  
Bland

**P.H.**  
7
